

Utilities CX

Supercharge the customer experience with
unified customer data

[Get started](#)

Overview

The reality

When customers aren't satisfied with the service they receive, retention drops—and the company can lose business as a result.

[Introducing Utilities CX >](#)

About

50%

of consumer satisfaction comes from factors within the direct control of a utility's customer-service team, including information timeliness, clarity, and ease of access¹

¹ Bobby Dean and others, "Transforming Customer Experience in Utilities," McKinsey & Company, October 4, 2021.

Wipro **Utilities CX**, built on Microsoft Dynamics 365, is a cloud-based customer relationship management (CRM) solution that unifies customer data from different sources to give customer-service agents the information they need to deliver better service.

Here's how it can help >

What challenge can Utilities CX help you solve?

Long response times threaten customer satisfaction and retention

Give your customer-service team a 360-degree customer view all in one place, so they have the data they need to act fast.

[Learn more >](#)

Customers get frustrated when they don't get the timely service they expect

Allow agents to quickly see all customer information and preferences, so they can meet customer needs efficiently.

Meet Nico

Director of Customer Operations

Challenge

Long response times threaten customer satisfaction and retention

Because customer-service agents don't currently have a consolidated view of the customer, it takes them time to jump between systems and find the information necessary to respond to customer issues. These agents need a solution that quickly gives them the tools and data they need to deliver fast, reliable support.

Solution

Solution

Utilities CX empowers employees to exceed customer needs and boost customer satisfaction and retention

This CRM solution unifies customer data across disparate sources like email, chat, and phone communications. This gives employees a holistic view to better understand customer preferences and issues, allowing them to act fast to reduce response times and improve customer engagement.

Meet Amber

Utilities customer

Challenge

Customers get frustrated when they don't get the timely service they expect

When Amber contacts customer support after missing garbage collections or experiencing outages, and doesn't get the service she expects, she's angry. She wants to rectify issues quickly within her preferred communication channel, and doesn't have the time or patience to deal with drawn-out resolution times.

³ Greg Guthridge, "When Energy Hits Home, Will Providers Be Left Out in the Cold?" Ernst & Young, November 29, 2022.

Solution

Utilities CX helps customers get their questions answered and issues resolved efficiently

Now that her customer-service agents have a 360-degree view of Amber's past issues, account information, and preferences, they can better meet her needs quickly and efficiently. Because the solution is equipped with guided business flows, the agents can track Amber's query lifecycle through all the stages to serve her better—which makes both Amber and her agents much happier.
